ABOUT ME

Full Stack Developer with **2 years of experience** building scalable enterprise applications in the **pharmaceutical and clinical supply chain domain**. Experienced in developing **config-driven architectures, reusable component libraries, and micro-frontend systems** using **React, TypeScript, and .NET**. Skilled in **cloud infrastructure, CI/CD automation, containerized deployments, and AI-assisted development workflows**.

SKILLS

- **Frontend:** ReactJS, TypeScript, JavaScript, Material UI, Fluent UI
- **Backend:** ASP.NET Web API, C#, FastAPI
- **Database:** MySQL, PostgreSQL
- **DevOps & Cloud:** Git, GitHub Actions, Azure, Google Cloud Platform (GCP), Docker, Kubernetes (GKE)
- **Testing & Others:** Jest, Roboto Automation, GitHub Copilot, Prompt Engineering, Agile / Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer (Associate Software Engineer)

Syren Cloud Technologies Pvt. Ltd., Hyderabad

Feb 2024 – Present

- Developed **15+ reusable configuration-driven UI components** using React, TypeScript, and Material UI, reducing duplicate development by **40%** across enterprise supply chain modules.
- Contributed to a **config-driven event-based architecture** with shared component libraries, accelerating feature delivery across workflows by **30%**.
- Implemented **Task Manager and Rule Engine services** using .NET APIs, automating clinical supply workflows and reducing manual processing by **60%**.
- Built **Jest test suites achieving 90%+ coverage** and leveraged **GitHub Copilot**, reducing component and API development time by **50%**.
- Implemented **Docker containerization, GCP infrastructure provisioning, Kubernetes (GKE) deployments, and CI/CD pipelines** enabling reliable production deployments.
- Optimized infrastructure usage through automated scheduling jobs, reducing **daily cloud costs by 80%**.

PROJECTS

Pharma Supply Chain Platform | Client Project

Enterprise platform built using React, TypeScript, and Material UI with shared reusable component libraries powering pharma supply chain workflows. Developed configurable UI components improving scalability while maintaining **90%+ unit test coverage** using Jest.

Clinical Trial Supply Chain Platform | Internal Product

Micro-frontend clinical supply chain system built with React and .NET. Implemented **Task Manager and Rule Engine automation** reducing manual workflow operations by **60%** and contributed to **Docker, GCP, GKE, and CI/CD infrastructure**.

NearbyRent | Personal Project

Full-stack SaaS rental platform built with React, TypeScript, Material UI, and .NET using a **monorepo architecture**. Implemented secure APIs, multi-layer database security, and CI/CD pipelines leveraging **AI-assisted development with GitHub Copilot**.

EDUCATION

B.Tech in Information Technology

Anil Neerukonda Institute of Technology and Sciences,

Visakhapatnam

2021 – 2024

CERTIFICATION

Microsoft Azure Fundamentals (AZ-900)

Microsoft Certified
